Solar Within Reach for Builders

Solar Program I Qualification Verification I Form 210B

To be completed by the builder of the home

This form must be completed by the builder of the home. The customer's solar trade ally contractor must then submit it to Energy Trust, with a Solar incentive application, prior to beginning work on the project.

I, _____ , am the builder of the home located at _____ (home address).

The home at this address is served by Portland General Electric or Pacific Power.

I am aware of the following two options available through Energy Trust of Oregon for installing rooftop solar for new homes:

1) **Income-Qualified:** *Energy Trust's Solar Within Reach incentive track provides higher incentives for low or moderate-income customers that are buyers of a new home, as defined by Oregon Statutes.*
2) **All Income**: *Energy Trust offers standard solar incentives to all Energy Trust customers, with no income qualification required for the sale of the home.*

Note: Income includes all gross wages, tips, rental income, public assistance, social security or pensions, income from self-employment, alimony, interest or any other sources of income defined by the IRS income tax return for the previous tax year.

2022 Moderate Income Chart (defined by Oregon Statutes)

Household size	Income of the household is less than the amounts shown below, adjusted for household size
1 person	$58,688
2	$76,744
3	$94,802
4	$112,860
5	$130,918
6	$148,976
7	$152,362
8 or more	$155,746

Signature (*Must be an authorized representative of the Builder*)

By checking the box below, I certify that this home qualifies for Energy Trust's Solar Within Reach incentives because the buyer(s) of the home will not exceed the maximum income for the total household size, as indicated in the "2022 Moderate Income Chart."

I also acknowledge that participating in this program will require me to pay a share of the project cost.

I certify that the information I am providing is true and accurate. I further understand that providing or misleading information about the qualifying criteria that I have selected constitutes an act of fraud and may render me ineligible for Energy Trust's Solar Within Reach incentives. If Energy Trust finds that I have provided false information about the buyer's income or other Solar Within Reach eligibility criteria, I may be required to repay any incentives provided. Energy Trust reserves the right to request additional proof of income or financial documentation related to the home sale process to verify qualification.
