Purpose

RETIRING THE NATURAL GAS EFFICIENCY PROGRAM POLICY

WHEREAS:

1. The board adopted the Gas Efficiency Program Policy in 2002, while Energy Trust was still negotiating an agreement with NW Natural to administer energy efficiency programs.
2. At the time, the policy was a useful way to determine which energy efficiency policies apply to gas programs and which do not.
3. Since 2002, gas and electric programs have come to be managed similarly in all respects, except that there is no self-direction program for gas, and the policy no longer serves any purpose.

It is therefore RESOLVED:

1. The Gas Efficiency Program Policy is hereby retired.
