

Open Solicitation Program for New Renewable Energy Resources

Initial Application Form

This application does not constitute an offer to enter into a contract with the Energy Trust, nor does it constitute an offer by Energy Trust to pay or reimburse the submitter. Energy Trust is under no obligation to review, examine, consider, evaluate, or pursue this proposal, or to disclose to you any information concerning its disposition of, or action on, the proposal. Any awards made by the Energy Trust as a result of this application will be subject to the terms of a definitive written agreement between the parties.

All data and information submitted to the Energy Trust in connection with this application are not submitted in confidence and are not received in confidence. Energy Trust is under no obligation to treat such data or information as confidential. All such information will become the sole property of the Energy Trust and may be disclosed to third parties or used by the Energy Trust for any purpose. Energy Trust shall not be liable for any damages resulting from any disclosure of such information, howsoever occurring.

Submission date _____

Project name _____

Applicant contact _____

Company/organization _____

Applicant address _____

City _____ State _____ Zip Code _____

Country _____ Telephone _____ Fax _____

Email _____ Internet URL _____

I. THRESHOLD CRITERIA

1. The project uses an eligible renewable resource. (See list below for reference.) Yes
- Eligible resource type (check one):
- Wind
 - Landfill gas
 - Digester gas
 - Other eligible biomass¹
 - Geothermal
 - Eligible hydroelectric²
- Source (e.g., farm, wastewater treatment):
Type:
2. The project is new, or it is an addition after March 1, 2002, to an existing project in operation. Yes
3. The project is located in the territory of (check one):
- Portland General Electric
 - Pacific Power
 - Other utility
4. I am a customer of (check if applicable):
- Portland General Electric Customer account number _____
 - Pacific Power Customer account number _____
5. My customer class is (check one):
- Residential
 - Small commercial (under 30 kW)
 - Medium commercial (30 kW to 1 MW)
 - Industrial or other large customers (over 1 MW)
 - Agricultural
 - Public (governments, schools)
 - Other (specify): _____
6. The project will (check one):
- Be net-metered
 - Produce power solely for on-site consumption; will not be net-metered; but will be grid-connected
 - Produce some power for on-site consumption, and some for sale back to a utility
 - Produce power solely for sale to a utility

¹ Low-emission, nontoxic biomass based on solid organic fuels from wood, forest or field residues; or dedicated energy crops available on a renewable basis.

² Hydroelectric facilities located outside protected areas as defined by Federal law in effect on July 23, 1999.

7. (Fill in only if you intend to sell power to a utility. Otherwise skip.) I have a power sales contract with:
- Portland General Electric
 - Pacific Power

7a. I intend to sell power to a utility and I do not have a power sales contract, but I have contacted the appropriate utility about obtaining one. (Leave blank if inapplicable.)
 Yes No

Utility representative contacted: _____
Phone: _____

8. Site control (check one):
- I own the site
 - I lease the site

9. I have contacted permitting agencies regarding this project:
- | | | |
|--------|------------------------------|-----------------------------|
| City | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| County | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| State | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

10. I have developed detailed technical specifications for this project.
 Yes No

11. I have requested and received bids and/or prices for this project:
- | | | |
|---|------------------------------|-----------------------------|
| From my equipment manufacturer or distributor | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| From my contractor | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

12. I have developed a financial pro-forma for this project. Yes No

13. I have contacted the Oregon Department of Energy's (ODOE) State Energy Loan Program. Yes No

13a. Energy Trust may share my information with ODOE. Yes No

13. I qualify for the Oregon Business Energy Tax Credit. Yes No

Is capable of future expansion

Market building

Demonstrates a technology or application that could be replicated at other Oregon sites

Helps lower cost and price of renewable energy technology / Has a long-term positive impact on the market for renewable resources

Helps build the business infrastructure of the Oregon renewable resource industries

Represents an incremental advance on previous projects / Supports best practices of the renewable resource industries

Non-electricity benefits

Is compatible with its site in terms of local regulations, historical uses, community support

Works effectively with community and economic development efforts / Increases local employment / Engages local organizations or programs

Will help educate general public on renewable energy technology

Environmentally sound / Delivers environmental benefits to air, land, water or climate / Provides environmental remediation or waste management

Provides other benefits / Captures useful thermal energy

To whom have you submitted this proposal, other than the Energy Trust? _____

This proposal is valid through: _____

III. QUALIFICATIONS OF PROPOSER

List staff that will be involved in the proposed project and explain the role of each. Describe the experience and credentials of the applicant organization and proposed staff.

Describe the financial resources and qualifications of the applicant organization.
