Qualifications

- Incentives listed here are available from January 1, 2008 through December 31, 2008.
- The primary heating system is the only equipment eligible for incentives. Secondary or back-up heat sources do not qualify.
- Duct Sealing and Performance Testing must be performed by a certified Performance Testing technician. See www.energytrust.org/CMS/trade_ally_list.php for a complete list of qualified technicians.
- Combustion Appliance Zone (CAZ) test is required for all Duct Sealing with Performance Testing measures. CAZ locations within unconditioned, ventilated attic spaces and/or zones with no atmospherically ventilated appliances are exempt.
- Air source and geothermal heat pumps with 2.49 COP are also accepted by the Program, with proper documentation.
- All measures must be installed in Energy Trust of Oregon's service territory.
 - ➔ Qualifying **electric territory homes** must have either PGE or Pacific Power as their electric provider.
 - ➔ Qualifying **gas territory homes** must have either Cascade Natural Gas or NW Natural as their gas provider.
