Foodservice Equipment (Assisted Living and Campus Living)  
Existing Multifamily | Incentive Application | Form 320F

To be completed by Participant

---

TRC is a Program Management Contractor for Energy Trust of Oregon.

### Who can apply:
Incentives are available for new, qualifying natural gas and electric energy-saving equipment installed at an existing multifamily property in Oregon. Electric customers of Portland General Electric or Pacific Power can apply for incentives for qualifying electric equipment, and natural gas customers (on qualifying rate schedules) of NW Natural, Cascade Natural Gas or Avista can apply for incentives for qualifying natural gas equipment. Additional requirements apply; see Terms and Conditions for details.

### Steps to completion:
1. **Install** an eligible energy efficiency improvement.
2. **Complete** application information and provide required supporting documentation, including:
   - W-9 for payee, if applicable
   - Invoice(s) for product and installation
   - Manufacturer spec sheet(s)
3. **Submit** form by fax, email or mail along with supporting documentation to:
   - Energy Trust of Oregon
   - Existing Multifamily
   - 811 SW 6th Ave, Suite 800
   - Portland, OR 97204
   - 1.877.510.2130 phone
   - 503.243.1154 fax
   - multifamily@energytrust.org

4. **Receive** your check. Please allow six to eight weeks for incentive processing after completed application is received.

### What you need-to-know:
- Energy Trust must receive applications within 90 days from equipment install.
- Incomplete information will result in delayed payment or disqualification of the incentive.
- A post-installation verification may be required to receive payment.
- Use Forms 320HVAC, 320WH, 320APP, or 320WX for other Existing Multifamily upgrades.

### Energy Trust Use Only

Foodservice Equipment (Assisted Living and Campus Living)
Existing Multifamily | Incentive Application | Form 320F

To be completed by Participant

TRC is a Program Management Contractor for Energy Trust of Oregon.

EFFECTIVE 7/9/2021, NEW LIMITS ON STANDARD INCENTIVES:

► Portland General Electric, or NW Natural or Avista customers without Pacific Power service — Energy Trust’s incentive limit for qualifying electric saving and natural gas saving equipment is $12,000 per-site, per-year for all submitted Standard applications combined.

- If applicant is requesting incentives greater than $12,000 for a site served by PGE electric service and/or NW Natural or Avista gas service, the incentives payable by Energy Trust for qualifying equipment will be limited to:
  - A maximum of $12,000; or
  - Any remaining portion of the $12,000 per site, per year limit if the site has submitted other applications during 2021 requesting incentives.

► Pacific Power customers (including sites with NW Natural or Avista gas service) — Energy Trust’s incentive limit for qualifying electric saving and natural gas saving equipment is $6,000 per-site, per-year for all submitted Standard applications combined.

- If applicant is requesting incentives greater than $6,000 for any site served by Pacific Power electric service including sites with NW Natural or Avista gas service, the incentives payable by Energy Trust for qualifying equipment will be limited to:
  - A maximum of $6,000; or
  - Any remaining portion of the $6,000 per site, per year limit if the site has submitted other applications during 2021 requesting incentives.

► Pacific Power Customers with Cascade Natural Gas gas service — Energy Trust’s incentive limit for qualifying electric equipment, if the site is served by Pacific Power, is $6,000 per-site, per-year, for all submitted Standard applications combined.

- If applicant is requesting incentives greater than $6,000 for a site served by Pacific Power and Cascade Natural Gas, the incentives payable by Energy Trust for qualifying electric equipment (with no gas savings) will be limited to:
  - A maximum of $6,000; or
  - Any remaining portion of the $6,000 per site, per year limit if the site has submitted other applications during 2021 requesting incentives for electric equipment,
  - Gas-only and combination gas/electric incentives for Cascade Natural Gas sites are not subject to this limit.

To request a preliminary review of planned equipment purchases and whether they exceed program maximum incentives for your site, please contact the program at multifamily@energytrust.org.

REMEMBER TO:

► Complete and sign this application.

► Attach invoices and all other required project cost documentation for all equipment purchased.

► Attach a completed IRS Form W9 or Energy Trust Substitute W9 form if applicable.

FOR MORE INFORMATION: Call 1.877.510.2130, and ask for the Multifamily program. Documents transmitted with faxed, scanned or digital signature shall be deemed to be original signatures. At the request of Energy Trust, Participant shall confirm signature by providing an original document.
### Terms and Conditions

1. **Application.** Energy Trust must receive this application with all required accompanying documentation within 90 days of equipment purchase and installation in order to qualify for incentives. All required information must be submitted before this application will be processed. Participant represents that the information and documentation it submits in support of this application is complete, truthful and accurate. By submitting this application to Energy Trust, Participant further represents that (i) none of the equipment requesting incentives has already received an Energy Trust incentive or rebate at the time of purchase, and (ii) none of the equipment requesting incentives will be submitted to the Oregon Department of Energy for conservation self-direct credits. Equipment that has received an Energy Trust incentive or rebate via another program offering is not eligible for any additional Energy Trust incentive funding. Participant should retain a copy of this application and any accompanying documentation submitted. Energy Trust’s Program Management Contractor (PMC) provides Existing Multifamily program (Program) services on behalf of Energy Trust. Neither Energy Trust nor the PMC will be responsible for any lost documentation pertaining to this application, or any lost or misdirected mail.

2. **Eligibility.** If Participant may apply for 1149 Multifamily Energy Program funding from Oregon Housing and Community Services (OHCS) funding for any equipment listed, Participant must contact the Program to discuss eligibility before submitting this application. Participant further understands and agrees that if it is eligible for SB 1149 OHCS Multifamily Energy Program funding, then Energy Trust is authorized to share information about Participant’s incentive application with OHCS for the purpose of determining potential incentive eligibility and funding amounts. The Energy Trust incentive funding available to NW Natural Industrial Sales Service Customer accounts established under Rate Schedule 3, 31 or 32 and Commercial Sales Service Customer accounts established under Rate Schedule 32 is subject to NW Natural’s Schedule 360 filing with the Public Utility Commission of Oregon, and a signed Form 112N: Natural Gas Non-Transportation Agreement must be submitted in addition to this application to be eligible for Energy Trust natural gas incentives. Transportation service or Combination service customer accounts are not eligible for Energy Trust natural gas incentives. Additional eligibility restrictions, including but not limited to any per-site, per-year limits, may apply and final determination of eligibility rests solely with Energy Trust.

3. **Eligible Equipment.** Equipment must be new and must meet Energy Trust energy efficiency specifications to qualify. The specifications and incentive amounts listed in this application are subject to change. Check our posted Multifamily Incentive Booklet located at energytrust.org/multifamilyincentives to confirm current Program specifications and incentives, and energytrust.org/mlbonus. If you, or your contractor are not sure of the specifications, please call us before proceeding.

4. **Equipment Installation.** Participant represents that (i) it has the right to install the energy saving equipment on the property and site(s) on which the equipment is installed and that any necessary consents have been obtained, and (ii) that all equipment installed and work performed complies with all federal, state, and local safety, building and environmental codes, and any manufacturer instructions.

5. **Project Cost Documentation.** Participant must submit all sales slips, invoices, manufacturer specification sheets and other pertinent documents itemizing the equipment purchased. The project cost documentation submitted must show (i) the date of purchase and itemized price paid, (ii) size, type, make, and model or part number of equipment purchased, and (iii) a description of any installation or other labor charges. In addition to the required proof of purchase documentation, the Program may require additional site or technical information from Participant, for certain equipment, in order to determine whether it qualifies for incentives. Participant will provide Energy Trust with additional proof of purchase or other requested equipment information upon request. If Participant is leveraging external funding sources to directly reduce all or a portion of the final project costs incurred by Participant for the energy-efficiency equipment (for example, state/federal funding, grants, discounts, rebates, incentives or other similar types of consideration) then Participant is required to notify Energy Trust in writing when submitting the project documentation and Energy Trust’s incentive will not exceed an amount equal to the total eligible project cost minus such external funds.

6. **Payment.** Incentives will be paid following (i) installation of qualifying energy efficient equipment at the site address listed and in accordance with Program requirements, (ii) submission of this completed application, a complete, accurate, and verifiable IRS Form W-9 (Request for Taxpayer Identification Number and Certification) for the incentive check recipient and all required accompanying project cost documentation, and (iii) satisfactory completion of a post-installation verification, if required. Incentives will be paid directly to the named Participant.

7. **Incentives.** Funds for incentives are limited and subject to budget availability. Program requirements, including incentive levels and limits, are subject to change and may vary by utility territory depending on the pace of demand in each territory and the available incentive budget. Final determination of eligibility for Energy Trust incentives rests solely with Energy Trust. The total incentive provided will depend upon the measures and incentive amounts in effect as of 7/9/2021 or equipment purchase, whichever date is later, and will never exceed the total, eligible project cost or any maximum per site, per year incentive limits in effect at the time of application submittal. **See page 5 for per-site, per-year incentive limits in effect.** Energy Trust incentives for qualifying equipment will never exceed any established per-site, per-year incentive limits or $499,999, whichever is less. Determination of site eligibility for application and incentive purposes shall rest solely with Energy Trust. If any bonus amounts are available for qualifying equipment, the base incentive plus the bonus incentives will never exceed the total documented eligible project cost or any per-site maximums.
8. Verification. Equipment installations may be selected for a post-installation verification. Should Participant's property be chosen for a post-installation verification of the equipment, satisfactory completion of that verification has to occur before payment is issued. This verification is for the purpose of incentive payment only. No warranty is implied.

9. Tax Liability. Energy Trust is not responsible for any tax liability which may be imposed on the Participant as a result of any incentive payment. Energy Trust is not providing tax advice, and any communication by Energy Trust is not intended or written to be used, and cannot be used, for the purpose of avoiding penalties under the Internal Revenue Code.

10. No Endorsement. Energy Trust does not endorse any particular manufacturer, contractor or product in promoting the Program. The fact that the names of particular manufacturers, contractors, products or systems may appear in the Program does not constitute an endorsement. Manufacturers, contractors, products or systems not mentioned are not implied to be unsuitable or defective in any way.

11. Access and Evaluation. Reviews and evaluations of project work during and after measure installation are a critical part of Energy Trust's evaluation process for energy savings and incentive calculations. Participant agrees to cooperate with any such evaluation as a requirement of its incentive agreement with Energy Trust. Participant agrees to provide Energy Trust and its representatives with (i) reasonable access to the project site(s), obtaining any and all necessary consents, (ii) requested technical and other project documentation related to the installed equipment, and (iii) information about the energy use and operations of the equipment and/or project site(s) for the purposes of evaluating the energy savings during and after project completion. Participant agrees that Energy Trust and its representatives may inform subsequent owners of the project site(s) that Energy Trust has provided services to the project site(s) for the sole purpose of evaluating and facilitating Energy Trust program services.

12. Disclaimer/No Liability. In connection with some applications, Energy Trust will provide incentive funding for energy-saving equipment. Participant understands that, while Energy Trust may provide this funding, neither Energy Trust nor the PMC are supervising any work performed for Participant, and neither Energy Trust nor the PMC are responsible in any way for proper completion of that work or proper performance of any equipment purchased. Participant assumes the risk of any loss or damage(s) that Participant may suffer in connection with the equipment. Energy Trust does not guarantee any particular energy savings results by its approval of this application, or by any other of its actions.

13. Energy Information Release. By signing and submitting this incentive application to Energy Trust, Participant authorizes Energy Trust to access its energy usage data for all of Participant's electric and gas utility accounts at the physical address(es) of the project as listed. Participant agrees to provide other reasonable assistance to Energy Trust to obtain such information. Participant further authorizes Energy Trust to discuss its energy efficiency efforts with its utility account representative(s).

14. Information Release. Participant agrees that Energy Trust may include some or all of the following information in reports to Bonneville Power Administration, the legislature, the Oregon Public Utility Commission (OPUC), and other government agencies as necessary to meet Energy Trust responsibilities and regulatory requirements: Participant's name, site address, general description of the type of energy saving or renewable project implemented (e.g. lighting, HVAC, solar PV), Energy Trust services or incentive payments provided to the Participant, and any energy saved or generated as a result of Energy Trust services or incentives. Energy Trust will treat all other information gathered as confidential and report it to such agencies only in the aggregate.

15. Governing Law. This agreement shall be exclusively governed by and construed in accordance with applicable Oregon law, without regard to any conflicts of laws rules thereof.
