### ALLOWING THE SELF-GENERATORS POLICY TO LAPSE

#### WHEREAS:

1. In 2003, the question arose whether large self-generators, who seek a large efficiency or renewable incentive yet pay little to the public purpose fund, should have access to Energy Trust incentives on the same basis as others.
2. The board adopted a policy allowing large energy users that self-generate up to \$500,000 in incentives per site/calendar year; and giving priority to non-self-generators for incentives over \$500,000.
3. Energy Trust has never encountered the situation with which the policy is concerned. Other policies require board approval of any incentive above \$500,000, which would seem to address the original concern.

#### It is therefore RESOLVED:

**The Board of Directors allows the Self-Generators policy to lapse.**

Brought forward by the Policy Committee

Vote:        In favor:        9                    Abstained:    0  
                   Opposed:        0

Adopted on April 7, 2010, by Energy Trust Board of Directors.
