

BRING OUT THE BEST IN YOUR MANUFACTURED HOME

RECEIVE FREE IMPROVEMENTS VALUED AT UP TO \$600

A few simple changes can make a big difference for your home. Energy Trust of Oregon is working with participating trade ally contractors to offer free air and duct sealing services that help to increase comfort, lower your heating and cooling costs, and improve indoor air quality.

Here's how it works: A specially trained technician will test your home and duct system for air leaks that cause higher heating and cooling costs and reduced comfort. Your technician may then seal these areas at no cost to you through Energy Trust's free manufactured home service.

These improvements, valued at up to \$600, are all provided free of charge. Owners and renters are eligible, but rental units must receive prior approval by the owner or property manager.

To learn more about these services and to find a trade ally contractor, visit www.energytrust.org/homes or call **1.866.368.7878**.

MORE WAYS TO IMPROVE COMFORT AND SAVINGS

Enjoy even greater comfort and energy cost savings when you upgrade your insulation, windows and heating or water heating system. Energy Trust provides cash incentives to help offset your out-of-pocket costs for qualified upgrades.

HEATING

Heat pumps and ductless heat pumps are excellent high-efficiency options for manufactured homes. They save considerable energy by moving heat in or out of your home depending on the season.

SMART THERMOSTATS

Smart thermostats offer convenient app-based control and can learn your schedule and even use local weather information to make energy-saving temperature changes automatically.

INSULATION AND WINDOWS

The better your insulation, the less your heating and cooling system has to work. Adding high-performance windows can also help lower your energy bills and boost curb appeal.

WATER HEATING

Water heating is the second biggest energy user in every home. Installing a high-efficiency water heater is a great way to lower those costs and enjoy dependable hot water without worry.

Visit www.energytrust.org/homes or call **1.866.368.7878** to prequalify your existing manufactured home and receive a list of Energy Trust trade ally contractors.

Incentives are subject to funding availability and may change.
