

We've seen big changes since upgrading to digital controls and variable frequency drives. We have better control over temperature and humidity, new visibility into equipment issues and we're saving taxpayer money on energy and water.

Jessica Rowan, Aquatics Director,
Cascade Swim Center

MAKE A BIG SPLASH WITH ENERGY SAVINGS

LOWER COSTS WITH EQUIPMENT UPGRADES FOR POOLS

Pool facility upgrades can save your business energy and money and improve customer comfort. Energy Trust of Oregon offers cash incentives to reduce your upfront costs and make energy-saving pool upgrades more affordable. Many energy-related pool improvements have benefits that improve air and water quality in your facilities. Our trade allies can help you identify projects that fit your specific needs.

Energy-efficient pool upgrades can have major benefits:

- Reduced energy costs
- Improved indoor air quality
- Better regulated air and water temperatures
- More comfortable humidity levels
- Greater indoor climate control
- Less condensation
- Increased guest comfort

PROJECTS ELIGIBLE FOR CASH INCENTIVES INCLUDE:

- Pool pumps
- Pool and domestic water heating
- Dehumidification heat recovery
- HVAC equipment and controls
- Variable frequency drives
- Retrocommissioning
- Water sanitation
- Lighting

SAVE ENERGY. BRING US IN.
