

# MAKE YOUR HOME WEATHER READY

Earn cash back for windows, insulation and other energy-saving upgrades that lower the cost of comfort.

## WINDOWS

Go ahead, check out the view. High-performance windows boost curb appeal and help lower your energy bills. Plus, you can receive cash incentives when you upgrade.

**Fun fact:** Our trade allies have installed **5.4 million square feet of new windows** in homes across **Oregon and Southwest Washington**.

## Five benefits of your window upgrade

Get cash back and lower energy costs

Reduce noise

Increase comfort year-round

Improve heating and cooling performance

Reduce drafts and condensation

## AIR SEALING

Sealing air leaks is a simple home improvement that increases comfort and efficiency, while keeping out drafts, moisture and pollutants. When you combine air sealing with an insulation upgrade, you'll see an even bigger impact.

## Simple steps to seal air leaks in your home

- 1 Use weatherstripping to prevent leakage around windows and doors.
- 2 Caulk small holes and cracks under countertops and around ducts, pipes, fans and vents.
- 3 Find hidden leaks by having a trade ally contractor perform a blower door test.

## INSULATION

Insulation is one of the most cost-effective ways to protect your home against the elements. The better the insulation, the less your heating and cooling system has to work to maintain comfortable temperatures. Cash incentives are available for qualifying installations.

### Insulation incentives

Homes built before 1978 typically have about **75% less insulation** than homes built to today's standards.

Make up the difference and get cash back when you insulate these areas of your home:

### Did you know?

Energy Trust of Oregon trade allies have installed more than **60.6 million square feet** of insulation. That's enough to run **the entire length of the Pacific Crest Trail almost 1.5 times.**

## EXPERT SUPPORT

Energy upgrades are easier when you've got experience on your side. Our trade ally network includes contractors who are specially trained on the latest technologies, Energy Trust standards, incentives and requirements.

## + Get more from your energy
