

Qualifying Central Air Conditioning Outdoor Units

Residential and Existing Multifamily
Effective January 1, 2024

Models listed below are known to meet the manufacturer-listed minimum SEER 15 or SEER2 14.25 requirement and the minimum total system 12 EER or 11.4 EER2 for central air conditioning outdoor units. If you have questions about model eligibility or to verify eligibility of a model not found on this list, please contact us at residential@energytrust.org for single family homes and multifamily@energytrust.org for multifamily residences.

The following models meet the \$100 Central AC incentive's SEER 15 or SEER2 14.25 requirements. Units **are not** guaranteed to meet EER 12 or EER2 11.4 requirements. Please visit ahridirectory.org to confirm system eligibility:

Manufacturer	Model Name	Model Number
Bryant	PREFERRED	123A
Carrier	COMFORT 15	24AAA5

The following models meet the \$250 Central AC incentive's SEER 16 or SEER2 15.2 requirements. Units **are not** guaranteed to meet EER 12 or EER2 11.4 requirements. Please visit ahridirectory.org to confirm system eligibility:
