

Speranza Architecture + Urban Design

The Firm

- Office of 6 located in Eugene, Oregon
- Firm led by Philip Speranza, AIA
- Multidisciplinary firm focusing on
 - Residential
 - Commercial
 - Master Planning
 - Urban Design

Our Commitment to the 2030 Challenge, and Ultimately, Better Buildings:

Buildings are a reflection of their spiritual makeup. By creating positive atmospheric experiences, our goal is not only to invest in the sustainability of a building, but also the development of sustainable behaviors.

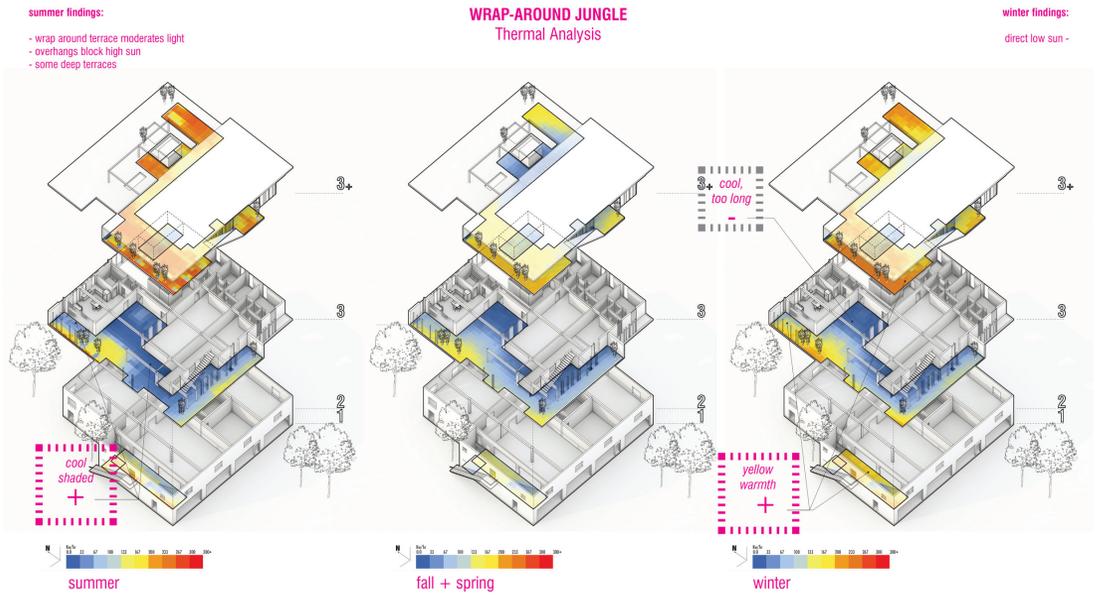

At SA+UD we pledge to lead efforts towards the design of better buildings and aim to define how well-being in a building can amplify sustainable living.

Real Data

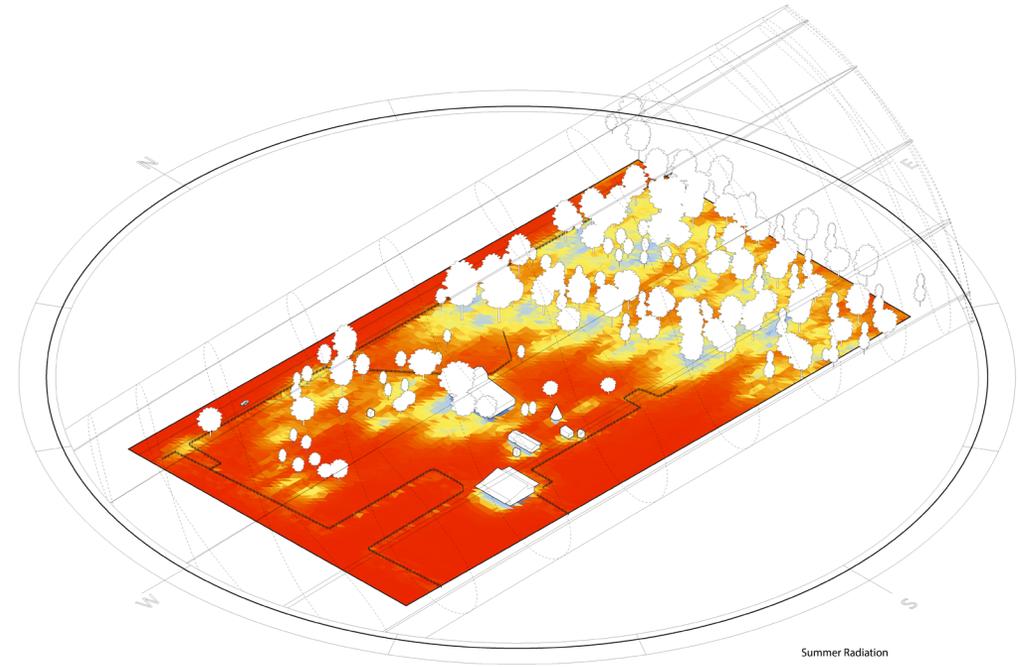

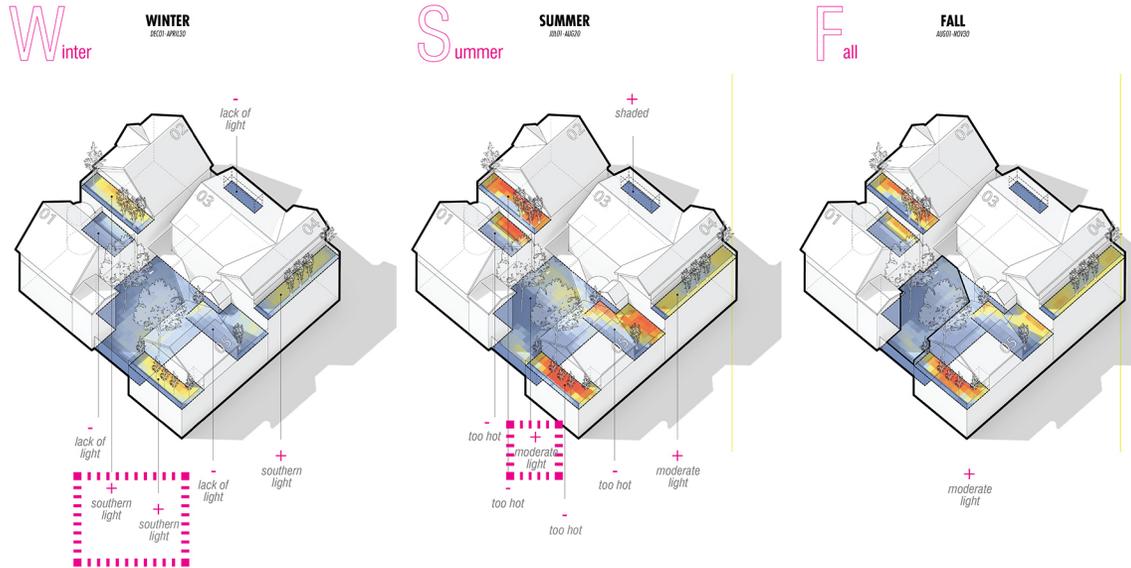

0: illuminance

First-hand experience of presenting real data to a client and the impact it makes on their decision-making towards better buildings

Analysis

HUMAN COMFORT ANALYSIS Post Occupancy Study - Watershed

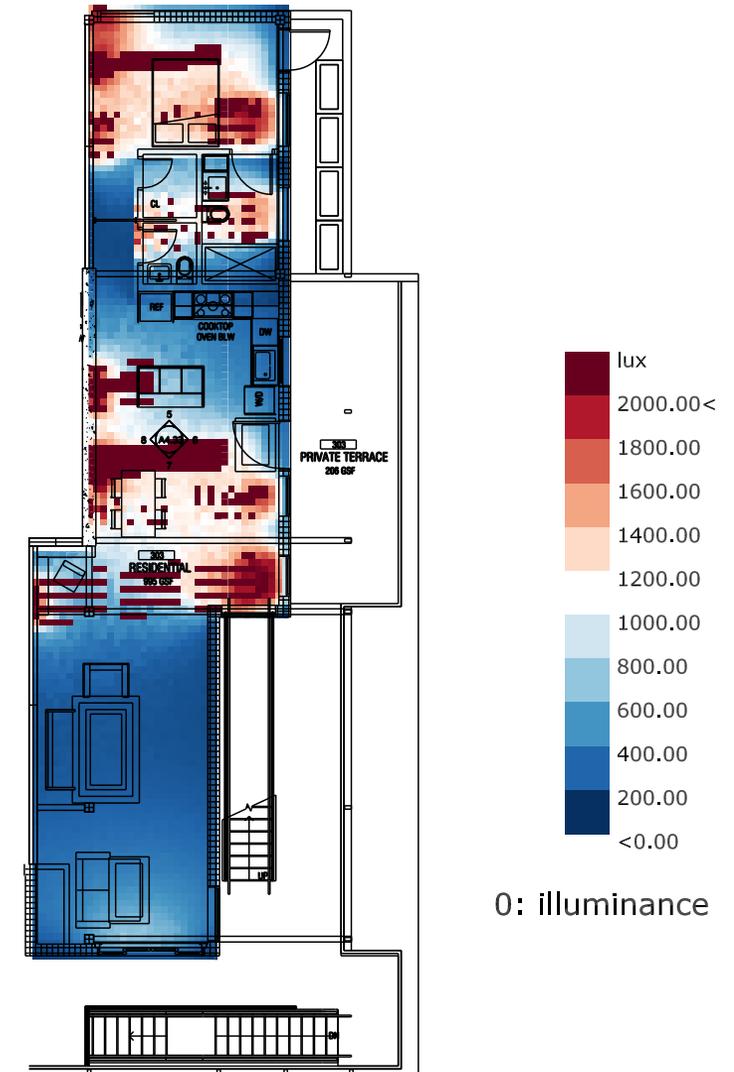

Eugene Moving & Storage for Jeff and Victoria Wilson-Charles | Speranza Architecture + Urban Design | Date: October 1, 2018

Analysis on the front end of the design, partnered with our philosophy, helps us understand how the two can relate and allow us to make better buildings.
We then can create a method of designing sustainable behaviors and make a better contribution to energy efficiency.

Sustainable Behaviors

What the analysis can do to inform the design decision, how it can teach and inform the client, and ultimately how it can teach the user about their contribution to energy efficiency.

Our Effort Towards Efficiency
