

Understanding Racial and Rural Disparities in Health Care

Minority and rural communities have suffered disproportionately during the COVID-19 Pandemic due to socioeconomic disparities and inequities in America's health care system. On Thursday, April 1st, from 3pm to 5pm, Energy Trust of Oregon will take a closer look at these disparities. We hope you'll join us for a lively discussion with health care advocates of color and the rural health care community. The URL link below is your ticket to voice your opinion!
