AT ENERGY TRUST OF OREGON, OUR MOST VALUABLE RESOURCE IS OUR PEOPLE. WE ARE EXCITED THAT YOU ARE CONSIDERING JOINING OUR TEAM.

OUR VISION AND PURPOSE

- Energy Trust envisions clean, affordable energy for everyone.
- We help customers and communities reduce costs and realize additional benefits by saving energy and using renewable resources.

WHAT WE DO

- Energy Trust is dedicated to helping 1.8 million utility customers in Oregon and Southwest Washington save energy and generate renewable power. We are primarily funded by utility customers. That is why ensuring customer benefit from Energy Trust investments is deeply embedded in our organization.
- We are committed to helping customers and communities understand energy and energy-related opportunities, and we are especially focused on finding ways to serve people with lower incomes, communities of color, smaller businesses and rural customers.
- Whether helping an individual accomplish a small home improvement or a large business equipment installation, we provide information and financial assistance leading to cost savings and lower carbon emissions. Our work grows Oregon's clean energy economy.
- We work together toward annual goals that describe how much energy we will save and generate through renewable resources. Our annual goals highlight focus areas for serving people, businesses and communities. They also include key operational objectives.
- Cultivating a network of Trade Ally contractors knowledgeable about our customer incentives, partnering with community-based organizations, and coordinating with utilities, state agencies and others in the evolving energy landscape is essential to our success.
- We are accountable to an independent board of directors and the Oregon Public Utility Commission and we have many stakeholders. All employees contribute to our efforts to report accurately and communicate transparently.
