

# NET ZERO GRANTS FOR RESEARCH FELLOWSHIPS AND STUDENT INTERNSHIPS

TAKE ADVANTAGE OF GRANTS TO SUPPORT NET ZERO RESEARCH AND STUDENT INTERNSHIPS

Energy Trust of Oregon is proud to support the innovative people who make net-zero buildings possible, from current industry professionals to the leaders of tomorrow. Our fellowship and internship grants aim to help firms create a sustainable future where new buildings produce as much energy as they consume.

## Net Zero Fellowship Grants

We award fellowship grants to support research projects that advance net-zero design, address potential barriers and help grow community involvement. The grants provide up to \$60,000 to support research over 12 months.

## Net Zero Emerging Leaders Internship Grants

Oregon architecture and engineering firms are eligible for funding to employ students for a 12-week internship to support the firm's AIA 2030 Commitment and MEP 2040 and SE 2050 Challenges.
