Optional Customer Demographic Information (If completed, choose all that apply)

Why is Energy Trust asking for this information?
Energy Trust is asking customers to submit demographic information because it is our responsibility to ensure that all customers can directly benefit from our services. We believe demographic data collection is a simple yet powerful tool for pursuing equity and inclusion in our work and programs. Receiving the information below about our customers will give us a clearer picture of program participation rates within our Residential Programs. We will use that information to assess our offers and identify barriers to participation, enabling us to develop and improve offers to reduce or eliminate those barriers. Questions about household income and full-time residents can help identify if you and your household may be eligible for increased Energy Trust incentives.

Providing this information is optional, does not impact your participation in the program, and will be held confidential by Energy Trust.
