

BRIGHTER BUSINESS, BIG SAVINGS

NO-COST LIGHTING UPGRADES FOR SMALL BUSINESSES AND COMMUNITY ORGANIZATIONS

We are working with Energy Trust of Oregon to help small businesses and non-profit organizations in our community save money and energy by providing free LED lighting upgrades.

BENEFITS OF ENERGY-EFFICIENT LIGHTING

- Reduces energy use, so you can save on utility bills and decrease monthly operating costs
- Improves lighting quality and consistency, resulting in brighter, safer spaces for your employees and the people you serve
- Decreases maintenance costs and time spent on frequent replacements or repairs

Is this offer for you?

Your business or organization is eligible if it is:

- Located in Oregon in an existing commercial building, multifamily property, or industrial facility and served by Portland General Electric or Pacific Power

And

- You have less than 20 employees

Or

- Your business space is less than 20,000 sq. ft. (includes all buildings on site)

Or

- You are a community organization that provides free or reduced-cost food, housing, health, economic or social services, or a religious center/place of worship

Call 1.800.326.2917 or email lighting@energytrust.org to confirm your eligibility. Energy Trust can also discuss other special offers for small businesses you may be eligible for. If you lease your space, let Energy Trust know and they can help share this information with your property manager.

Let's get started!

- **Sign up for a walkthrough survey.** An Energy Trust representative will visit your space and recommend energy-efficient lighting solutions that work for your space.
- **Have energy-efficient equipment installed.** Once you review the recommendations and approve the project scope, the installation will be scheduled around your availability. Your installer will even remove your old lighting fixtures for you.
- **Enjoy your new lighting and energy savings.** You will pay no out-of-pocket costs* for the lighting upgrades and support from Energy Trust's outreach team and qualified lighting installers make the process easy.

For more information, call 1.800.326.2917 or email lighting@energytrust.org.

This is a limited-time offer. Some restrictions apply and incentives are offered on a first-come, first-served basis while funding lasts. Learn more at www.energytrust.org/smallbusinesslighting.

**If your business requires additional electrical or other work to accommodate new lighting, you may request a quote from your installer or separately engage a contractor of your choice to provide you with a quote. That work would need to be completed before Energy Trust could install the lighting project.*
